

IV International Workshop
on
Progress in Determining the Boltzmann Constant

22-24 September 2009 - Torino – Italy

Venue:

INRI M - Istituto Nazionale di Ricerca Metrologica – Torino - Italy

Topics:

Definition of the kelvin, determination of the Boltzmann constant. Acoustic Gas Thermometry, Dielectric Constant Gas Thermometry, Laser-based Doppler width Thermometry, Noise Thermometry.

Satellite events:

- iMERA-Plus JRP T1.J1.4 mid-term meeting
- Sub groups meetings
- CCT WG4 TG-SI meeting

Sponsored by iMERA & INRI M, in cooperation with the Consultative Committee for Thermometry TG-SI.

The proceedings will be published in a special issue of International Journal of Thermophysics
